

**2019-2020**

**EI6702- Logic and Distributed Control System**

**Video demonstration**

**Objective:**

Provide a clear and concise explanation of what Logic and DCS are, their importance, and how they function in various industries.

## EI8451- Electrical Machines

### Group Discussion

#### **Objective:**

To facilitate a dynamic and informative group discussion on electrical machines within the field of electronics and instrumentation. By the end of the discussion, participants should have a comprehensive understanding of the principles, types, applications, and challenges related to electrical machines, enabling them to apply this knowledge effectively in their academic and professional pursuits
