#### Event Description:

Mr. R. Pradeep John, Alumnus (1996-2000), Cloud computing solution Architect, Bangaluru, has given a Leaders talk in Present scenario in Software Industries. He said that the software industry might seem far removed from the traditional domains of mechanical engineering, which is often associated with designing machinery, systems, and physical structures. However, the reality is that software is now integral to nearly every aspect of mechanical engineering. He also motivate the students to computer-Aided Design (CAD) and Computer-Aided Engineering (CAE) tools to simulation software used for stress analysis, fluid dynamics, and thermal analysis, mechanical engineers rely on software to design, test, and optimize physical products.

Event Description:

Mr. K. S. Selian Ammarnaath, Alumnus (2012-2016), Global Trade Automation Program Manager, California, USA, has given a Leaders talk in Integrated Supply Chain Management. He also encouraged students about the software-based companies for the placements and the expectations criteria from the company sector. He shared his thoughts about the future of software industries. He discussed the skills and qualifications that companies seek in potential candidates and advised students on how to align their software skills. He said that about many software-based companies operate on a global scale this not only means that there are opportunities to work on international projects.
