

**Study Tour**

Study Tour offers students immersive, real-world exposure to modern agricultural practices and technologies. Participants visit farms, processing units, research centers, and agri-industries to connect classroom learning with field realities. The experience enhances understanding of crop production, mechanization, and post-harvest management. Students gain insights into sustainable practices, innovations, and entrepreneurial opportunities in agriculture. It's a dynamic platform that inspires curiosity, practical skills, and industry-ready competence in future agronomists and agri-engineers.

1. Cold Storage National Agricultural Development Programme 2011-2012
2. Krishi Vigyan Kendra Gobichettipalayam
3. Saravanan Mushroom production Unit Gobichettipalayam
