

ENTREPRENEURSHIP DEVELOPMENT CELL

Handout

Faculty In-charge(s)

N.S.Mohan, Assistant Professor/Mech

The Cell has been functioning in the College since 2005, guides and motivates the students to become an entrepreneur by organizing several programmes through the sharing of experiences by the successful entrepreneur. In view of the worldwide shortage of jobs (both government and private sectors) leading to unemployment problems and lack of proper utilization of human resources, the cell strives to identify talented youth and makes them involve with entrepreneurial work. The Entrepreneurship Development Cell comprises of Chief EDC Co-Ordinator, Department Faculty coordinator and interested student members.

The EDC is financially supported by AICTE, New Delhi and EDI, Tamil Nadu, for its establishment and developmental activities. A separate Advisory Board and Annual Performance Review Committee have been formed to suggest and monitor the EDC activities.

The Cell strives to bring out the talents of the youth by organizing various programs as mentioned below.

- Students are encouraged in their respective discipline by **"Think beyond"** concept through Intra departmental Project & Paper contests.
- Workshops are organized to make the students to understand the basic process to commercialize their innovations.
- Entrepreneurs are invited to share their experiences to mould the budding entrepreneurs.
- Entrepreneur potentials are accumulated through Industrial visits, In-plant Training & Internship Projects and interaction with industrialists.
- Aspiring innovators & entrepreneurs are encouraged to bring out their hidden ideas through common project contests like "project expo", My Idea Programme, etc.
- Process of patent registration is discussed to stimulate the students to bring innovative projects and apply for new patents.

Objective

The Entrepreneurship Development Cell (EDC) aims to cultivate an entrepreneurial culture by equipping students with essential skills through workshops, training, and mentorship programs. It provides incubation support, access to resources, and networking opportunities to nurture startup ventures. By organizing competitions, pitch events, and hackathons, the EDC encourages innovation and practical problem-solving. Additionally, it fosters industry collaborations, connects budding entrepreneurs with investors and alumni, and facilitates funding opportunities. Ultimately, the EDC strives to promote sustainable and socially impactful business ventures that contribute to economic growth.
